EXXON MOBIL CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Financial Statement Preparation

These unaudited condensed consolidated financial statements should be read in the context of the consolidated financial statements and notes thereto filed with the Securities and Exchange Commission in the Corporation's 2009 Annual Report on Form 10-K. In the opinion of the Corporation, the information furnished herein reflects all known accruals and adjustments necessary for a fair statement of the results for the periods reported herein. All such adjustments are of a normal recurring nature. The Corporation's exploration and production activities are accounted for under the "successful efforts" method.

2. Accounting Changes

Effective January 1, 2010, ExxonMobil adopted the authoritative guidance for variable-interest entities (VIEs). The guidance requires the enterprise to qualitatively assess if it is the primary beneficiary of the VIE and, if so, the VIE must be consolidated. The adoption of the guidance did not have a material impact on the Corporation's financial statements.

3. Litigation and Other Contingencies**Litigation**

A variety of claims have been made against ExxonMobil and certain of its consolidated subsidiaries in a number of pending lawsuits. Management has regular litigation reviews, including updates from corporate and outside counsel, to assess the need for accounting recognition or disclosure of these contingencies. The Corporation accrues an undiscounted liability for those contingencies where the incurrence of a loss is probable and the amount can be reasonably estimated. If a range of amounts can be reasonably estimated and no amount within the range is a better estimate than any other amount, then the minimum of the range is accrued. The Corporation does not record liabilities when the likelihood that the liability has been incurred is probable but the amount cannot be reasonably estimated or when the liability is believed to be only reasonably possible or remote. For contingencies where an unfavorable outcome is reasonably possible and which are significant, the Corporation discloses the nature of the contingency and, where feasible, an estimate of the possible loss. ExxonMobil will continue to defend itself vigorously in these matters. Based on a consideration of all relevant facts and circumstances, the Corporation does not believe the ultimate outcome of any currently pending lawsuit against ExxonMobil will have a materially adverse effect upon the Corporation's operations or financial condition.

Other Contingencies

	As of March 31, 2010		
	Equity Company Obligations	Other Third Party Obligations	Total
	(millions of dollars)		
Total guarantees	\$ 6,690	\$ 3,163	\$9,853

The Corporation and certain of its consolidated subsidiaries were contingently liable at March 31, 2010, for \$9,853 million, primarily relating to guarantees for notes, loans and performance under contracts. Included in this amount were guarantees by consolidated affiliates of \$6,690 million, representing ExxonMobil's share of obligations of certain equity companies. These guarantees are not reasonably likely to have a material effect on the Corporation's financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

[Table of Contents](#)

Additionally, the Corporation and its affiliates have numerous long-term sales and purchase commitments in their various business activities, all of which are expected to be fulfilled with no adverse consequences material to the Corporation's operations or financial condition. The Corporation's outstanding unconditional purchase obligations at March 31, 2010, were similar to those at the prior year-end period. Unconditional purchase obligations as defined by accounting standards are those long-term commitments that are noncancelable or cancelable only under certain conditions, and that third parties have used to secure financing for the facilities that will provide the contracted goods or services.

The operations and earnings of the Corporation and its affiliates throughout the world have been, and may in the future be, affected from time to time in varying degree by political developments and laws and regulations, such as forced divestiture of assets; restrictions on production, imports and exports; price controls; tax increases and retroactive tax claims; expropriation of property; cancellation of contract rights and environmental regulations. Both the likelihood of such occurrences and their overall effect upon the Corporation vary greatly from country to country and are not predictable.

In accordance with a nationalization decree issued by Venezuela's president in February 2007, by May 1, 2007, a subsidiary of the Venezuelan National Oil Company (PdVSA) assumed the operatorship of the Cerro Negro Heavy Oil Project. This Project had been operated and owned by ExxonMobil affiliates holding a 41.67 percent ownership interest in the Project. The decree also required conversion of the Cerro Negro Project into a "mixed enterprise" and an increase in PdVSA's or one of its affiliate's ownership interest in the Project, with the stipulation that if ExxonMobil refused to accept the terms for the formation of the mixed enterprise within a specified period of time, the government would "directly assume the activities" carried out by the joint venture. ExxonMobil refused to accede to the terms proffered by the government, and on June 27, 2007, the government expropriated ExxonMobil's 41.67 percent interest in the Cerro Negro Project.

On September 6, 2007, affiliates of ExxonMobil filed a Request for Arbitration with the International Centre for Settlement of Investment Disputes. An affiliate of ExxonMobil has also filed an arbitration under the rules of the International Chamber of Commerce against PdVSA and a PdVSA affiliate for breach of their contractual obligations under certain Cerro Negro Project agreements. Both arbitration proceedings continue. At this time, the net impact of this matter on the Corporation's consolidated financial results cannot be reasonably estimated. However, the Corporation does not expect the resolution to have a material effect upon the Corporation's operations or financial condition. ExxonMobil's remaining net book investment in Cerro Negro producing assets is about \$750 million.

Amortization of actuarial loss/(gain) and prior service cost	62	71
Net benefit cost	<u>\$ 180</u>	<u>\$ 192</u>

7. Financial Instruments and Derivatives

The fair value of financial instruments is determined by reference to observable market data and other valuation techniques as appropriate. The only category of financial instruments where the difference between fair value and recorded book value is of significance is long-term debt. The estimated fair value of total long-term debt, including capitalized lease obligations, was \$7.6 billion and \$7.7 billion, at March 31, 2010 and December 31, 2009, respectively, as compared to recorded book values of \$7.1 billion and \$7.1 billion at March 31, 2010 and December 31, 2009, respectively.

The estimated fair value of derivatives outstanding and recorded on the balance sheet was a net receivable of \$17 million and a net payable of \$5 million on March 31, 2010 and December 31, 2009, respectively. The Corporation would have paid or received this amount from third parties if these derivatives had been settled in the open market based on observable market inputs.

The fair value of derivatives outstanding at March 31, 2010, is immaterial in relation to total assets of \$243 billion or net income attributable to ExxonMobil for the three months ended March 31, 2010, of \$6.3 billion.

9. Condensed Consolidating Financial Information Related to Guaranteed Securities Issued by Subsidiaries

Exxon Mobil Corporation has fully and unconditionally guaranteed the deferred interest debentures due 2012 (\$2,205 million long-term at March 31, 2010) and the debt securities due 2010-2011 (\$13 million long-term and \$13 million short-term) of SeaRiver Maritime Financial Holdings, Inc., a 100 percent owned subsidiary of Exxon Mobil Corporation.

The following condensed consolidating financial information is provided for Exxon Mobil Corporation, as guarantor, and for SeaRiver Maritime Financial Holdings, Inc., as issuer, as an alternative to providing separate financial statements for the issuer. The accounts of Exxon Mobil Corporation and SeaRiver Maritime Financial Holdings, Inc. are presented utilizing the equity method of accounting for investments in subsidiaries.

EXXON MOBIL CORPORATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

FUNCTIONAL EARNINGS SUMMARY

<u>Earnings (U.S. GAAP)</u>	<u>First Three Months</u>	
	<u>2010</u>	<u>2009</u>
	(millions of dollars)	
Upstream		
United States	\$1,091	\$ 360
Non-U.S.	4,723	3,143
Downstream		
United States	(60)	352
Non-U.S.	97	781
Chemical		
United States	539	83
Non-U.S.	710	267
Corporate and financing	(800)	(436)
Net Income attributable to ExxonMobil (U.S. GAAP)	\$6,300	\$4,550
Earnings per common share (dollars)	\$ 1.33	\$ 0.92
Earnings per common share - assuming dilution (dollars)	\$ 1.33	\$ 0.92

References in this discussion to total corporate earnings mean net income attributable to ExxonMobil (U.S. GAAP) from the income statement. Unless otherwise indicated, references to earnings, special items, Upstream, Downstream, Chemical and Corporate and Financing segment earnings, and earnings per share are ExxonMobil's share after excluding amounts attributable to noncontrolling interests.

REVIEW OF FIRST QUARTER 2010 RESULTS

Exxon Mobil Corporation reported first quarter 2010 earnings of \$6,300 million, up 38 percent or \$1,750 million from the first quarter of 2009. ExxonMobil achieved solid results from its worldwide operations. The results reflect higher crude oil realizations and stronger chemical margins while the downstream industry margins remained weak. Earnings per share were \$1.33, an increase of 45 percent. Earnings include a charge of approximately \$200 million associated with the recently enacted U.S. health care legislation.

ExxonMobil's solid financial position enabled ongoing investment at record levels through the business cycle. Nearly \$4 billion was returned to shareholders in the first quarter through dividends and share purchases to reduce shares outstanding.

<u>Upstream earnings</u>	<u>First Three Months</u>	
	<u>2010</u>	<u>2009</u>
	(millions of dollars)	
United States	\$ 1,091	\$ 360
Non-U.S.	4,723	3,143
Total	<u>\$ 5,814</u>	<u>\$ 3,503</u>

Upstream earnings were \$5,814 million, up \$2,311 million from the first quarter of 2009. Higher crude oil prices, partly offset by lower natural gas realizations, increased earnings \$2.5 billion. Higher gas volumes improved earnings by \$190 million while higher operating expenses decreased earnings \$380 million.

On an oil-equivalent basis, production increased 4.5 percent from the first quarter of 2009. Excluding the impacts of entitlement volumes, OPEC quota effects and divestments, production was up nearly 6 percent.

[Table of Contents](#)

Liquids production totaled 2,414 kbd (thousands of barrels per day), down 62 kbd from the first quarter of 2009. Excluding the impacts of entitlement volumes, OPEC quota effects and divestments, liquids production was down 1 percent, as increased production from projects in Qatar and Kazakhstan was offset by field decline.

First quarter natural gas production was 11,689 mcf (millions of cubic feet per day), up 1,502 mcf from 2009, driven by project ramp-ups in Qatar and higher demand in Europe.

Earnings from U.S. Upstream operations were \$1,091 million, \$731 million higher than the first quarter of 2009. Non-U.S. Upstream earnings were \$4,723 million, up \$1,580 million.

	First Three Months	
	2010	2009
	(millions of dollars)	
Downstream earnings		
United States	\$ (60)	\$ 352
Non-U.S.	97	781
Total	<u>\$ 37</u>	<u>\$ 1,133</u>

Downstream earnings were \$37 million, down \$1,096 million. Lower refining margins drove the majority of the decline, reducing earnings \$1.1 billion. Petroleum product sales of 6,144 kbd were 290 kbd lower than last year's first quarter, mainly reflecting lower demand.

The U.S. Downstream recorded a loss of \$60 million, down \$412 million from the first quarter of 2009. Non-U.S. Downstream earnings of \$97 million were \$684 million lower.

	First Three Months	
	2010	2009
	(millions of dollars)	
Chemical earnings		
United States	\$ 539	\$ 83
Non-U.S.	710	267
Total	<u>\$ 1,249</u>	<u>\$ 350</u>

Chemical earnings of \$1,249 million were \$899 million higher than the first quarter of 2009. Stronger margins improved earnings by nearly \$480 million while higher sales volumes increased earnings \$180 million. All other items, including asset management gains and the absence of hurricane costs from 2009, increased earnings by \$240 million. First quarter prime product sales of 6,488 kt (thousands of metric tons) were 961 kt higher than the prior year primarily due to improved global demand.

	First Three Months	
	2010	2009
	(millions of dollars)	
Corporate and financing earnings	\$ (800)	\$ (436)

Corporate and financing expenses were \$800 million, up \$364 million from first quarter 2009, mainly due to a charge related to the U.S. health care legislation signed into law in March 2010 and the absence of favorable 2009 tax items.

LIQUIDITY AND CAPITAL RESOURCES

	First Three Months	
	2010	2009
	(millions of dollars)	
Net cash provided by/(used in)		
Operating activities	\$13,046	\$ 8,910
Investing activities	(5,167)	(4,740)
Financing activities	(4,620)	(10,105)
Effect of exchange rate changes	(210)	(530)
Increase/(decrease) in cash and cash equivalents	<u>\$ 3,049</u>	<u>\$ (6,465)</u>
Cash and cash equivalents (at end of period)	\$13,742	\$ 24,972
Cash flow from operations and asset sales		
Net cash provided by operating activities (U.S. GAAP)	\$13,046	\$ 8,910
Sales of subsidiaries, investments and property, plant and equipment	424	141
Cash flow from operations and asset sales	<u>\$13,470</u>	<u>\$ 9,051</u>

Because of the ongoing nature of our asset management and divestment program, we believe it is useful for investors to consider asset sales proceeds together with cash provided by operating activities when evaluating cash available for investment in the business and financing activities.

Total cash and cash equivalents of \$13.7 billion at the end of the first quarter of 2010 compared to \$25.0 billion at the end of the first quarter of 2009.

Cash provided by operating activities totaled \$13 billion for the first three months of 2010, \$4.1 billion higher than 2009. The major source of funds was net income including noncontrolling interests of \$6.6 billion, adjusted for the noncash provision of \$3.3 billion for depreciation and depletion, both of which increased. Changes in operational working capital added to cash flows in both periods. For additional details, see the Condensed Consolidated Statement of Cash Flows on page 5.

Investing activities for the first three months of 2010 used net cash of \$5.2 billion compared to \$4.7 billion in the prior year. Spending for additions to property, plant and equipment increased \$1.1 billion to \$5.8 billion.

Cash flow from operations and asset sales in the first quarter of 2010 of \$13.5 billion, including asset sales of \$0.4 billion, increased \$4.4 billion from the comparable 2009 period.

Net cash used in financing activities of \$4.6 billion in the first three months of 2010 was \$5.5 billion lower reflecting a lower level of purchases of shares of ExxonMobil stock.

During the first quarter of 2010, Exxon Mobil Corporation purchased 37 million shares of its common stock for the treasury at a gross cost of \$2.5 billion. These purchases included about \$2 billion to reduce the number of shares outstanding, with the balance used to offset shares issued in conjunction with the company's benefit plans and programs. Shares outstanding were reduced from 4,727 million at the end of the fourth quarter to 4,698 million at the end of the first quarter. Purchases may be made in both the open market and through negotiated transactions, and may be increased, decreased or discontinued at any time without prior notice.

The Corporation distributed to shareholders a total of nearly \$4 billion in the first quarter of 2010 through dividends and share purchases to reduce shares outstanding.

Total debt of \$9.5 billion at March 31, 2010, compared to \$9.6 billion at year-end 2009. The Corporation's debt to total capital ratio was 7.4 percent at the end of the first quarter of 2010 compared to 7.7 percent at year-end 2009.

Although the Corporation issues long-term debt from time to time and maintains a revolving commercial paper program, internally generated funds are expected to cover the majority of its near-term financial requirements.

The Corporation, as part of its ongoing asset management program, continues to evaluate its mix of assets for potential upgrade. Because of the ongoing nature of this program, dispositions will continue to be made from time to time which will result in either gains or losses.

[Table of Contents](#)

In accordance with a nationalization decree issued by Venezuela's president in February 2007, by May 1, 2007, a subsidiary of the Venezuelan National Oil Company (PdVSA) assumed the operatorship of the Cerro Negro Heavy Oil Project. This Project had been operated and owned by ExxonMobil affiliates holding a 41.67 percent ownership interest in the Project. The decree also required conversion of the Cerro Negro Project into a "mixed enterprise" and an increase in PdVSA's or one of its affiliate's ownership interest in the Project, with the stipulation that if ExxonMobil refused to accept the terms for the formation of the mixed enterprise within a specified period of time, the government would "directly assume the activities" carried out by the joint venture. ExxonMobil refused to accede to the terms proffered by the government, and on June 27, 2007, the government expropriated ExxonMobil's 41.67 percent interest in the Cerro Negro Project.

On September 6, 2007, affiliates of ExxonMobil filed a Request for Arbitration with the International Centre for Settlement of Investment Disputes. An affiliate of ExxonMobil has also filed an arbitration under the rules of the International Chamber of Commerce against PdVSA and a PdVSA affiliate for breach of their contractual obligations under certain Cerro Negro Project agreements. Both arbitration proceedings continue. At this time, the net impact of this matter on the Corporation's consolidated financial results cannot be reasonably estimated. However, the Corporation does not expect the resolution to have a material effect upon the Corporation's operations or financial condition. ExxonMobil's remaining net book investment in Cerro Negro producing assets is about \$750 million.

TAXES

	First Three Months	
	2010	2009
	(millions of dollars)	
Income taxes	\$ 5,493	\$ 3,148
<i>Effective income tax rate</i>	50%	45%
Sales-based taxes	6,815	5,906
All other taxes and duties	9,349	8,589
Total	\$21,657	\$17,643

Income, sales-based and all other taxes and duties for the first quarter of 2010 of \$21,657 million were higher than 2009. In the first quarter of 2010 income tax expense increased to \$5,493 million reflecting the higher level of earnings and the effective income tax rate was 50 percent, compared to \$3,148 million and 45 percent, respectively, in the prior year period. Sales-based taxes and all other taxes and duties increased in 2010 reflecting higher prices and foreign exchange effects.

CAPITAL AND EXPLORATION EXPENDITURES

	First Three Months	
	2010	2009
	(millions of dollars)	
Upstream (including exploration expenses)	\$5,546	\$4,366
Downstream	674	646
Chemical	614	758
Other	43	4
Total	\$6,877	\$5,774

ExxonMobil's solid financial position enabled ongoing investment at record levels through the business cycle. Capital and exploration expenditures were \$6.9 billion in the first quarter of 2010, up 19 percent from 2009 reflecting higher spending in the Upstream.

Capital and exploration expenditures for full year 2009 were \$27.1 billion and are expected to range from \$25 billion to \$30 billion for the next several years. Actual spending could vary depending on the progress of individual projects.

FORWARD-LOOKING STATEMENTS

Statements in this report relating to future plans, projections, events or conditions are forward-looking statements. Actual results, including benefits resulting from the XTO transaction; project plans, costs, timing, and capacities; capital and exploration expenditures; and share purchase levels, could differ materially due to factors including: the timing and conditions of regulatory clearance for the XTO merger; our ability to integrate the businesses of XTO and ExxonMobil effectively after closing; changes in long-term oil or gas prices or other market or economic conditions affecting the oil and gas industry; unforeseen technical difficulties; political events or disturbances; reservoir performance; the outcome of commercial negotiations; wars and acts of terrorism or sabotage; changes in technical or operating conditions; and other factors discussed under the heading "Factors Affecting Future Results" in the "investors" section of our website and in Item 1A of ExxonMobil's 2009 Form 10-K. We assume no duty to update these statements as of any future date.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Information about market risks for the three months ended March 31, 2010, does not differ materially from that discussed under Item 7A of the registrant's Annual Report on Form 10-K for 2009.

Item 4. Controls and Procedures

As indicated in the certifications in Exhibit 31 of this report, the Corporation's chief executive officer, principal financial officer and principal accounting officer have evaluated the Corporation's disclosure controls and procedures as of March 31, 2010. Based on that evaluation, these officers have concluded that the Corporation's disclosure controls and procedures are effective in ensuring that information required to be disclosed by the Corporation in the reports that it files or submits under the Securities Exchange Act of 1934, as amended, is accumulated and communicated to them in a manner that allows for timely decisions regarding required disclosures and are effective in ensuring that such information is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. There were no changes during the Corporation's last fiscal quarter that materially affected, or are reasonably likely to materially affect, the Corporation's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

In February 2010, the South Coast Air Quality Management District (AQMD) issued a penalty assessment against ExxonMobil Oil Corporation for alleged violations of the California Health and Safety Code and AQMD regulations at the Torrance, California refinery related to a crack in the roof of a tank at the refinery and a leak in a drain at the refinery. The assessment alleges that the leak in the tank resulted in impermissible air emissions. ExxonMobil Oil Corporation has agreed to resolve the matter for a penalty payment of \$475,000.

In January 2010, the Corporation detected a leak of propylene from the Ethylene Purification Unit at the Corporation's Baton Rouge, Louisiana chemical plant. The Corporation reported the incident to the Louisiana Department of Environmental Quality (LDEQ). The Corporation is in discussions with the LDEQ to resolve this matter, as well as several other air emission exceedences at the Baton Rouge chemical plant. Although LDEQ has not proposed a specific penalty, it is believed at this time that the potential penalty may exceed \$100,000.

In the matter, *In re Exxon Mobil, Corp. Derivative Litigation*, in the District Court of Dallas County, Texas, previously reported in the Corporation's Form 10-K for 2009 and Form 10-Q for the third quarter of 2009, on April 30, 2010, the Court granted the defendants' special exceptions due to plaintiffs' failure 1) to make a pre-suit demand on the Board of Directors, or 2) to plead facts sufficient to excuse such a demand. The trial court has given the Plaintiffs until June 1, 2010, to re-file their pleading to allege with specificity a legally sufficient basis to excuse Plaintiffs' failure to make a pre-suit demand on the Board.

Refer to the relevant portions of note 3 on pages 6 and 7 of this Quarterly Report on Form 10-Q for further information on legal proceedings.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchase of Equity Securities for Quarter Ended March 31, 2010

<u>Period</u>	<u>Total Number Of Shares Purchased</u>	<u>Average Price Paid per Share</u>	<u>Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs</u>	<u>Maximum Number Of Shares that May Yet Be Purchased Under the Plans or Programs</u>
January, 2010	11,624,927	\$ 68.13	11,624,927	
February, 2010	11,626,524	\$ 65.46	11,626,524	
March, 2010	14,143,265	\$ 66.60	14,143,265	
Total	37,394,716	\$ 66.72	37,394,716	(See Note 1)

Note 1 — On August 1, 2000, the Corporation announced its intention to resume purchases of shares of its common stock for the treasury both to offset shares issued in conjunction with company benefit plans and programs and to gradually reduce the number of shares outstanding. The announcement did not specify an amount or expiration date. The Corporation has continued to purchase shares since this announcement and to report purchased volumes in its quarterly earnings releases. In its most recent earnings release dated April 29, 2010, the Corporation stated that second quarter 2010 share purchases to reduce shares outstanding are expected to continue at a pace of about \$2 billion. However, the total purchases for the quarter may be less due to trading restrictions during the proxy solicitation period for the XTO merger. Purchases may be made in both the open market and through negotiated transactions, and purchases may be increased, decreased or discontinued at any time without prior notice.

101	Interactive Data Files.

**Certification by Rex W. Tillerson
Pursuant to Securities Exchange Act Rule 13a-14(a)**

I, Rex W. Tillerson, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Exxon Mobil Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
