Innovating energy solutions: Research and development highlights

R&D has been part of ExxonMobil's DNA since our company began more than 135 years ago. Our innovations have helped provide the energy fundamental to modern life - from the clean, efficient fuels that power today's transportation to the natural gas that provides light and heat to homes and businesses.

Today, our world faces a dual challenge: meeting growing demand for energy while also reducing environmental impacts, including the risks of climate change. ExxonMobil is committed to doing our part.

Important additional information regarding proxy solicitation

Exxon Mobil Corporation ("ExxonMobil") has filed a preliminary proxy statement and form of associated BLUE proxy card with the U.S. Securities and Exchange Commission (the "SEC") in connection with the solicitation of proxies for ExxonMobil's 2021 Annual Meeting (the "Preliminary Proxy Statement"). ExxonMobil, its directors and certain of its executive officers will be participants in the solicitation of proxies from shareholders in respect of the 2021 Annual Meeting. Information regarding the names of ExxonMobil's directors and executive officers and their respective interests in ExxonMobil by security holdings or otherwise is set forth in the Preliminary Proxy Statement. To the extent holdings of such participants in ExxonMobil's securities are not reported, or have changed since the amounts described, in the Preliminary Proxy Statement, such changes have been reflected on Initial Statements of Beneficial Ownership on Form 3 or Statements of Change in Ownership on Form 4 filed with the SEC. Details concerning the nominees of ExxonMobil's Board of Directors for election at the 2021 Annual Meeting are included in the Preliminary Proxy Statement. BEFORE MAKING ANY VOTING DECISION, INVESTORS AND SHAREHOLDERS OF THE COMPANY ARE URGED TO READ ALL RELEVANT DOCUMENTS FILED WITH OR ACCOMPANYING BLUE PROXY CARD WHEN THEY BECOME AVAILABLE, BECAUSE THEY WILL CONTAIN IMPORTANT INFORMATION. Investors and shareholders will be able to obtain a copy of the definitive proxy statement and other relevant documents filed by ExxonMobil free of charge from the SEC's website, www.sec.gov. ExxonMobil's shareholders will also be able to obtain, without charge, a copy of the definitive proxy statement and

Creating long-term value in a lower-carbon future

ExxonMobil's board of directors and senior management are working on a thoughtful strategy to drive long-term value for our stakeholders, sustain our strong dividend and meet the challenges of ensuring the world's future energy needs while addressing the risks of climate change. ExxonMobil has the technologies, functional excellence, operational discipline and people to succeed.

"We are committed to operating in a responsible and sustainable manner and providing the energy that is essential to improving lives around the world, while managing the risks of climate change."

- 100% of CO₂ captured

THE 2025 PLAN

Positioned to generate strong, industry-leading free cash flows

Capital and operating expense reductions driving improved leverage, power and cash generation

CAPEX
Successful 2020 commitments to reduce capital and cash operating expenses.
Full year 2020 capital spending of \$21.4 billion was nearly \$1 billion, or 5% percent, lower than the stated \$22 billion plan, and \$2 billion below the revised \$23 billion plan.
We expect 2021 cash flow to cover capex while maintaining the dividend and a strong balance sheet, ensuring three years of \$10 per barrel and beyond annual Chemical and Chemical margins during 2019-2021. Capex can be further reduced to enable dividend coverage and maintenance of balance sheet strength at three years of approximately \$45 per barrel.
Near term investment priorities include developments in Guyana and the U.S. Permian Basin, Arctic exploration in Brazil and high-value Chemicals performance products.

OPEX
Achieving structural cost reductions and driving operational efficiencies.
In 2020, we reduced annual cash operating expenses by \$6 billion, or 1% percent lower than 2019, of which \$3 billion are structural reductions.
We expect to generate additional annual structural operating expense reductions of \$1 billion by 2023, resulting in total annual structural reductions of \$6 billion versus 2019.
