UNITED STATES SECURITIES AND EXCHANGE COMMISSION Washington, D.C. 20549

FORM 8-K

CURRENT REPORT

Pursuant to Section 13 OR 15(d) of The Securities Exchange Act of 1934

Date of Report (Date of earliest event reported): April 26, 2019

Exxon Mobil Corporation

(Exact name of registrant as specified in its charter)

New Jersey (State or other jurisdiction of incorporation) **1-2256** (Commission File Number) **13-5409005** (IRS Employer Identification No.)

5959 LAS COLINAS BOULEVARD, IRVING, TEXAS 75039-2298

(Address of principal executive offices)

(Zip Code)

Registrant's telephone number, including area code: 972-940-6000

(Former name or former address, if changed since last report)

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

[] Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)

[] Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)

[] Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))

[] Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging growth company \Box

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

The following information is furnished pursuant to both Item 2.02 and Item 7.01.

The Registrant hereby furnishes the information set forth in its News Release, dated April 26, 2019, announcing first quarter 2019 results, a copy of which is included as Exhibit 99.1, and furnishes the information in the related 1Q19 Investor Relations Data Summary, a copy of which is included as Exhibit 99.2. Material available by hyperlink from the News Release is not deemed to be furnished herewith or included in this filing.

FOR IMMEDIATE RELEASE FRIDAY, APRIL 26, 2019

ExxonMobil Earns \$2.4 Billion in First Quarter 2019

- Upstream liquids production grows by 5 percent versus first quarter 2018, driven by the Permian
- · Portfolio strengthens with new offshore discoveries in Guyana and Cyprus
- · Downstream and Chemical results reflect challenging industry margin environments

| | First Quarter <u>2019</u> | First Quarter <u>2018</u> | <u>%</u> | Fourth Quarter <u>2018</u> | <u>%</u> |

| | | | | | |
| Capital and Exploration | | | | | |
| Expenditures | 6,890 | 4,867 | 42 | 7,843 | -12 |

IRVING, Texas – April 26, 2019 – Exxon Mobil Corporation today announced estimated first quarter 2019 earnings of \$2.4 billion, or \$0.55 per share assuming dilution, compared with \$4.7 billion a year earlier. Cash flow from operations and asset sales was \$8.4 billion, including proceeds associated with asset sales of \$107 million. During the quarter, the company distributed \$3.5 billion in dividends to shareholders. Capital and exploration expenditures were \$6.9 billion, up 42 percent from the prior year, reflecting key investments in the U.S. Permian Basin.

Oil-equivalent production was 4 million barrels per day, up 2 percent from the first quarter of 2018. Excluding entitlement effects and divestments, oil-equivalent production was up 3 percent from the first quarter of 2018. Upstream liquids production grew by 5 percent compared with the first quarter of 2018, driven by Permian unconventional growth of nearly 140 percent.

"Solid operating performance in the first quarter helped mitigate the impact of challenging Downstream and Chemical margin environments. In addition, we continued to benefit from our integrated business model," said Darren W. Woods, chairman and chief executive officer. "We are making strong progress on our growth plans and expect to deliver sustained value for our shareholders. The change in Canadian crude differentials, as well as heavy scheduled maintenance, similar to the fourth quarter of 2018, affected our quarterly results."

First Quarter 2019 Business Highlights

Upstream

- Crude prices strengthened during the quarter but remained weaker, on average, than the fourth quarter of 2018. North
 American differentials narrowed, largely as a result of imposed production curtailments in Canada and additional
 takeaway capacity in the Permian.
- Natural gas prices were impacted by warmer weather.
- Production volumes benefited from continued unconventional growth. However, first quarter production was negatively
 impacted by lower Kearl output in Canada and downtime.

Downstream

- ExxonMobil achieved first sales of on-specification Group II basestocks from the advanced hydrocracker at the Rotterdam refinery in the Netherlands. The new unit uses proprietary catalyst in a unique refining configuration to upgrade lower-value vacuum gas oil into higher-value EHC[™] Group II basestocks and ultra-low sulfur diesel.
- Weak industry fuels margins from high gasoline inventory levels and narrowed North American crude differentials impacted results in the quarter.
- Overall heavy scheduled maintenance remained at similar levels to the fourth quarter of 2018.

Chemical

• Sales volumes increased from the prior year quarter reflecting project growth, however, margins remained challenged with continued supply length from recent industry capacity additions.

Strengthening the Portfolio

- ExxonMobil made two additional discoveries offshore Guyana at the Tilapia-1 and Haimara-1 wells during the first quarter. In April, the company also announced a new discovery at the Yellowtail-1 well, marking the 13th discovery on the Stabroek Block.
- ExxonMobil made a natural gas discovery offshore Cyprus in the Eastern Mediterranean at the Glaucus-1 well. Based on
 preliminary interpretation of the well data, the discovery could represent an in-place natural gas resource of
 approximately 5 trillion to 8 trillion cubic feet (142 billion to 227 billion cubic meters). Further analysis is required to better
 determine the resource potential.
- ExxonMobil has revised its Permian Basin growth plans to produce more than 1 million oil-equivalent barrels per day by as early as 2024. The size of the company's resource base in the Permian is approximately 10 billion oil-equivalent barrels and is likely to grow further as analysis and development activities continue.

Investing for Growth

 ExxonMobil and partner Qatar Petroleum made a final investment decision to proceed with development of the Golden Pass LNG export project located in Sabine Pass, Texas. The facility is expected to start up in 2024. The project will have capacity to produce approximately 16 million tons of liquefied natural gas per year and provide an increased, reliable, long-term supply of liquefied natural gas to global gas markets.

- ExxonMobil reached a final investment decision and started construction on a new unit at its Beaumont, Texas refinery that will increase crude refining capacity by more than 65 percent, or 250,000 barrels per day. The third crude unit within the facility's existing footprint will expand light crude oil refining and be supported by increased crude oil production in the Permian Basin.
- ExxonMobil reached a final investment decision on construction of a new polypropylene production unit in Baton Rouge, Louisiana that will expand production capacity along the Gulf Coast by up to 450,000 metric tons per year. Construction will begin in 2019 and startup is anticipated by 2021.

Advancing Innovative Technologies and Products

- ExxonMobil announced a new partnership with Microsoft Corporation that will make its Permian Basin operations the largest-ever oil and gas acreage to use cloud technology to drive improvements in analyses and enhance operational efficiencies. The application of Microsoft technologies by ExxonMobil's XTO Energy subsidiary is anticipated to improve capital efficiency and support Permian production growth by as much as 50,000 oil-equivalent barrels per day by 2025.
- ExxonMobil and Renewable Energy Group have signed a joint research agreement with Clariant AG to evaluate the
 potential use of cellulosic sugars from sources such as agricultural waste and residues to produce biofuel, which has the
 potential to play a role in reducing greenhouse gas emissions.

Earnings and Volume Summary

| Millions of Dollars | 1Q | 1Q | | |
|-------------------------------|-------|-------|--------|---|
| (unless noted) | 2019 | 2018 | Change | Comments |
| Upstream | | | | |
| U.S. | 96 | 429 | -333 | Lower liquids prices, higher growth-related expenses and an asset impairment charge (-115), partly offset by liquids volume growth |
| Non-U.S. | 2,780 | 3,068 | -288 | Absence of Scarborough asset sale gain (-366), lower liquids prices, higher growth- related expenses and an asset impairment charge (-43), partly offset by higher gas realizations and favorable tax impacts |

First Quarter 2019 Financial Updates

During the first quarter of 2019, Exxon Mobil Corporation purchased 5 million shares of its common stock for the treasury at a gross cost of \$414 million. These shares were acquired to offset dilution in conjunction with the company's benefit plans and programs. The corporation will continue to acquire shares to offset dilution in conjunction with its benefit plans and programs.

ExxonMobil will discuss financial and operating results and other matters during a webcast at 8:30 a.m. Central Time on April 26, 2019. To listen to the event or access an archived replay, please visit www.exxonmobil.com.

Cautionary Statement

Outlooks, projections, goals, targets, descriptions of strategic plans and objectives, and other statements of future events or conditions in this release are forward-looking statements. Actual future results, including business and project plans, capacities, costs, and timing; resource recoveries and production rates; and the impact of new technologies, including to increase capital efficiency and production and to reduce greenhouse gas emissions, could differ materially due to a number of factors. These include global or regional changes in supply and demand for oil, gas, and petrochemicals and other market conditions that impact prices and differentials; reservoir performance; the outcome of exploration projects and timely completion of development and construction projects; the impact of fiscal and commercial terms and the outcome of commercial negotiations or acquisitions; changes in law, taxes, or regulation including environmental regulations, and timely granting of governmental permits; war, and other political or security disturbances; the actions of competitors; the capture of efficiencies between business lines; unforeseen technical or operating difficulties; unexpected technological developments; the ability to bring new technologies to commercial scale on a cost-competitive basis; general economic conditions including Factors Affecting Future Results on the Investors page of our website at www.exxonmobil.com and in Item 1A of ExxonMobil's 2018 Form 10-K. We assume no duty to update these statements as of any future date.

Frequently Used Terms and Non-GAAP Measures

This press release includes cash flow from operations and asset sales. Because of the regular nature of our asset management and divestment program, we believe it is useful for investors to consider proceeds associated with the sales of subsidiaries, property, plant and equipment, and sales and returns of investments together with cash provided by operating activities when evaluating cash available for investment in the business and financing activities. A reconciliation to net cash provided by operating activities is shown for the first quarter of 2019 on page 6 and for 1Q 2019, 1Q 2018 and 4Q 2018 in Attachment V.

This press release also includes total taxes including sales-based taxes. This is a broader indicator of the total tax burden on the corporation's products and earnings, including certain sales and value-added taxes imposed on and concurrent with revenue-producing transactions with customers and collected on behalf of governmental authorities ("sales-based taxes"). It combines "Income taxes" and "Total other taxes and duties" with sales-based taxes, which are reported net in the income statement. We believe it is useful for the corporation and its investors to understand the total tax burden imposed on the corporation's products and earnings. A reconciliation to total taxes is shown as part of the Estimated Key Financial and Operating Data in Attachment I.

References to the resource base and other quantities of oil, natural gas or condensate may include estimated amounts that are not yet classified as "proved reserves" under SEC definitions, but which are expected to be ultimately recoverable. The term "inplace" refers to those quantities of oil and natural gas estimated to be contained in known accumulations and includes recoverable and unrecoverable amounts. The term "project" as used in this release can refer to a variety of different activities and does not necessarily have the same meaning as in any government payment transparency reports. Further information on ExxonMobil's frequently used financial and operating measures and other terms including "Cash flow from operations and asset sales", and "Total taxes including sales-based taxes" is contained under the heading "Frequently Used Terms" available through the "Investors" section of our website at exxonmobil.com.

Reference to Earnings

References to corporate earnings mean net income attributable to ExxonMobil (U.S. GAAP) from the consolidated income statement. Unless otherwise indicated, references to earnings, Upstream, Downstream, Chemical and Corporate and financing segment earnings, and earnings per share are ExxonMobil's share after excluding amounts attributable to noncontrolling interests.

EHC is a registered trademark of Exxon Mobil Corporation.

Exxon Mobil Corporation has numerous affiliates, many with names that include ExxonMobil, Exxon, Mobil, Esso, and XTO. For convenience and simplicity, those terms and terms such as corporation, company, our, we, and its are sometimes used as abbreviated references to specific affiliates or affiliate groups. Similarly, ExxonMobil has business relationships with thousands of customers, suppliers, governments, and others. For convenience and simplicity, words such as venture, joint venture, partnership, co-venturer, and partner are used to indicate business and other relationships involving common activities and interests, and those words may not indicate precise legal relationships.
