THRIFT PLAN OF EXXON CORPORATION
AND PARTICIPATING AFFILIATES

NOTES TO FINANCIAL STATEMENTS

Note 1: Plan Description

The participants in the Thrift Plan of Exxon Corporation and Participating Affiliates (the "Thrift Plan", also called the "Thrift Fund" or the "Savings and Investment Program") are eligible employees and former employees of Exxon Corporation and certain affiliated employers. The terms and conditions of the Thrift Plan are fully contained in the Thrift Plan of Exxon Corporation and Participating Affiliates document (Plan Document) dated December 1993, as amended from time to time. The Thrift Plan is an "employee pension benefit plan" described in Section 3(2) of Employee Retirement Income Security Act of 1974 (ERISA) and also a "defined contribution plan" described in Section 3(34)

of ERISA.

Eligibility, enrollment, participant and employer contributions, vesting, participation, forfeiture, loans, withdrawals, distribution, and other Thrift Plan provisions are described in detail in the Plan Document. Also set forth in the Plan Document are the investment features and options of the Thrift Plan including, but not limited to, stock purchases and sales, equity unit purchases and sales, extended market unit purchases and sales, and other transactions.

Note 2: Accounting Policies

The accounting records of the Thrift Plan are maintained on the accrual basis.

The Common Asset Fund, Exxon Corporation Common Stock Fund, Equity Portfolio Fund, and Extended Market Portfolio Fund investments are stated at current value. Current values are based on quoted prices as of the date of the financial statements, or, if market quotations are not readily available, upon estimated values obtained from a major investment securities firm. Exxon Corporation Class A preferred stock held in the Exxon Corporation Preferred Stock Fund is stated at current value. Such value was determined by the Trustee of the Thrift Plan.

Net appreciation in the current value of investments includes realized gains and losses on investments sold during the year and unrealized gains and losses on investments held at year-end.

-5-

THRIFT PLAN OF EXXON CORPORATION
AND PARTICIPATING AFFILIATES

NOTES TO FINANCIAL STATEMENTS

Note 3: Revalued Cost Basis Gains and Losses

The Department of Labor (DOL) requires that the components of net appreciation (depreciation) for investments held in the Exxon Corporation Common Stock Fund, investments held in the Common Asset Fund, and investments held in the Exxon Corporation Preferred Stock Fund be segregated and calculated on a revalued cost basis for ERISA annual report (Form 5500) reporting purposes. Under the revalued cost basis, realized gains and losses on investments sold are calculated as proceeds less market value at the beginning of the year or, if acquired during the year, historical cost. Unrealized gains and losses are calculated as market value of assets at the end of the year less market value at the beginning of the year or, if acquired during the year, historical cost.

For the Common Asset Fund and the Exxon Corporation Preferred Stock Fund fixed income securities, gains and losses are calculated on the basis of specific security identification. For Exxon Corporation common stock, gains and losses are calculated assuming a first-in, first-out methodology for total shares in the portfolio for all shares sold by participants.

For the years ended November 30, 1995 and 1994, these components of net appreciation (depreciation) were:

	Exxon Corporation Common Stock		Common Asset Fixed Income Securities		Exxon Corporation Preferred Stock	
	1995	1994	1995	1994	1995	1994
	----	----	----	----	----	----
			(millions of dollars)			
Realized G/(L)	\$ 94	(\$ 1)	\$ 6	(\$14)	\$ -	\$ -
Unrealized G/(L)	659	(97)	54	(60)	120	(14)
	-----	-----	-----	-----	-----	-----

Net Appreciation	\$753	(\$98)	\$60	(\$74)	\$120	(\$14)
(Depreciation)						

Note 4: Tax Status

In 1993, the Internal Revenue Service issued a favorable determination letter with respect to the qualification of the Thrift Plan under Section 401(a) of the Internal Revenue Code (IRC). The Trustee believes that the Plan is qualified and, therefore, that the Trust is exempt from tax under IRC Section 501(a).

The federal tax treatment of a qualified plan and trust, as well as distributions from such a plan, are described in the Plan Document.

-6-

THRIFT PLAN OF EXXON CORPORATION
AND PARTICIPATING AFFILIATES

NOTES TO FINANCIAL STATEMENTS

Note 5: Expenses

Participating employers pay the administrative expenses of the Thrift Fund with the exception of: (1) brokers' commissions and SEC fees on Exxon Corporation common stock purchases and sales which are paid by Thrift participants purchasing or selling stock and are included in the price of the stock at the time of purchase or sale and (2) management fees, brokerage commissions, and administrative expenses of the Equity Portfolio Fund and the Extended Market Portfolio Fund, which are paid by Thrift participants in those respective Funds.

Note 6: Direct Dividend Account

A Leveraged Employee Stock Ownership Plan (LESOP) was incorporated into the Thrift Plan on August 1, 1988. This LESOP is commonly referred to as the Direct Dividend Account (DDA) and is described in detail in the Plan Document. In 1989, the Trustee-Thrift Trust borrowed \$1.0 billion at a floating rate of interest under the terms of notes, guaranteed by Exxon Corporation, maturing between 1990 and 1999. Remaining annual principal payments on the notes range from \$110.0 million to \$125.0 million. In addition, there are subrogation rights obligations which are mentioned below. The Trustee used the proceeds of the borrowing to purchase 16,349,945 shares of a new issue of Exxon Corporation Class A preferred stock for \$61.50 per share. Exxon Corporation Class A preferred stock can be converted into Exxon Corporation common stock at the lower of current common stock market value or \$61.50. Dividends are cumulative and payable in an amount per share equal to \$4.68 per annum. As of November 30, 1995, there were 19,135,188 shares of Exxon Corporation common stock in the DDA.

Employer contributions to the DDA, plus certain dividends, are used to make principal and interest payments on the notes. Employer contributions are based on a matching program related to employee contributions and are funded annually when principal amounts on the notes are due. As contributions and dividends are credited, shares of preferred stock are proportionately converted into common stock and allocated to participants' accounts in accordance with the applicable requirements of the IRC. During 1995, 1,678,567 shares, or approximately \$103 million, of preferred stock were converted to common stock and allocated. During 1994, 1,819,364 shares, or approximately \$112 million, of preferred stock were converted to common stock and allocated. Net dividends on the preferred stock of \$40 million and \$48 million were paid during 1995 and 1994, respectively, and covered certain principal and interest payments on the notes and interest payments on the subrogation rights referred to below.

-7-

THRIFT PLAN OF EXXON CORPORATION
AND PARTICIPATING AFFILIATES

The June, 1995 \$105 million principal payment on the notes and \$7 million retirement of subrogation rights (referred to below) were funded with approximately \$86 million of employer contributions to the DDA, \$25 million of common dividends reinvested within the DDA and \$1 million of preferred stock dividends and interest income in excess of interest expense.

The June, 1994 \$110 million principal payment on the notes was funded with approximately \$71 million of employer contributions to the DDA, \$21 million of common dividends reinvested within the DDA and \$11 million of preferred stock dividends and interest income in excess of interest expense and a guarantor payment by Exxon Corporation of approximately \$7 million.

Upon its payment in 1994, 1991 and 1990 respectively of approximately \$7 million, \$11 million and \$53 million principal on the notes as guarantor, Exxon Corporation became subrogated to all rights of the holders of such notes with respect to those payments. These subrogation rights include the right to receive payment from the Trustee-Thrift Trust of the remaining principal amounts, if any, plus accrued and unpaid interest thereon, upon final payment of all principal and interest on the notes. During 1994 and 1992, Exxon Corporation sold these subrogation rights to a third party, which is paid interest thereon on a current basis. Under certain circumstances, the third party may require Exxon Corporation to repurchase these subrogation rights. During 1995, \$7 million of the subrogation rights obligation incurred in 1994 was retired. During 1993, \$12 million of the subrogation rights obligation incurred in 1990 was retired, and during 1992, \$11 million of the subrogation rights obligation incurred in 1991 was retired.

Note 7: Claims Incurred But Not Paid

The Plan reports benefits paid on a cash basis as required under generally accepted accounting principles. For Form 5500 reporting purposes, claims incurred but not paid of \$4 million and \$37 million for the years ended November 30, 1995 and 1994 respectively are reported on an accrual basis. As such, the net assets available for benefits reflected for Form 5500 purposes are \$6,880 million and \$5,833 million for the years ended November 30, 1995 and 1994, respectively.

REPORT OF INDEPENDENT ACCOUNTANTS

To the Trustee of the Thrift Fund

In our opinion, the financial statements (pages 2-8) listed in the accompanying index present fairly, in all material respects, the net assets available for benefits of the Thrift Plan of Exxon Corporation and Participating Affiliates (the Thrift Plan) at November 30, 1995 and 1994, and the changes in its net assets available for benefits for the year ended November 30, 1995, in conformity with generally accepted accounting principles. These financial statements are the responsibility of the Trustee of the Thrift Plan; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with generally accepted auditing standards which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by the Trustee of the Thrift Plan, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for the opinion expressed above.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of assets held for investment purposes and reportable transactions are presented for purposes of additional analysis and are not a required part of the basic financial statements but are supplementary information required by ERISA. The Fund Information in the statement of net assets available for benefits and the statement of changes in net assets available for benefits is presented for purposes of additional analysis rather than to present the statement of net assets available for benefits and the statement of changes in net assets available for benefits of each fund. The supplemental schedules and Fund Information have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.
