NOTES TO FINANCIAL STATEMENTS

**Note 1: Description of the Plan**

**General**

Active participants in the ExxonMobil Savings Plan ("Plan") are eligible employees of Exxon Mobil Corporation ("ExxonMobil" or "Company") and certain affiliated employers. The terms and conditions of the Plan are contained in the ExxonMobil Common Provisions document, the ExxonMobil Savings Plan document, and the ExxonMobil Savings Trust document (collectively, the "Plan Document"). The Plan is an "employee pension benefit plan" described in Section 3(2) of the Employee Retirement Income Security Act of 1974 ("ERISA") and also a "defined contribution plan" described in Section 3(34) of ERISA. In addition, effective February 8, 2002, the entire Plan was designated an Employee Stock Ownership Plan ("ESOP"), designed to invest primarily in employer securities.

**Contributions**

The Plan permits participant contributions of up to 20% of compensation and, prior to 2007, a 100% Company match was made on the first 6% of compensation contributed by the participant. Prior to 2007, participants could receive up to an additional 1% Company match on the 6% of compensation if the participant elected for the Company match to be directed to the Stock Match Account ("SMA"). Prior to 2007, the restriction on the SMA stipulated that 75% of the assets in the SMA must be invested in ExxonMobil stock.

Effective January 1, 2007, all active participants began receiving a Company match of 7% of compensation on the first 6% of compensation contributed by them, regardless of how the Company match is directed. Also effective January 1, 2007, the SMA became fully diversifiable, allowing investments in any of the Plan investment options with no minimum percentage requirements for investment in ExxonMobil stock.

Employees who are at least age 50 during the plan year and who maximize their before-tax contributions may elect to make additional pretax contributions.

**Vesting**

Participants are immediately vested in their contributions and all earnings. Company contributions vest at 100% upon the earliest of completion of 3 years of vesting service, reaching age 65 while employed, or upon death while an employee.

**Forfeitures**

During 2007, employer contributions totaling \$0.5 million were forfeited by terminating employees and used to offset future employer contributions.

**Other Plan Provisions**

Other Plan provisions including eligibility, enrollment, participation, forfeiture, loans, benefit payments (including withdrawals and distributions), and investment options are described in the Plan Document.

**Plan Termination**

The Company may terminate or amend the Plan at any time. In the event of termination, the net assets of the Plan will be distributed in accordance with ERISA.

NOTES TO FINANCIAL STATEMENTS

**Note 2: Summary of Significant Accounting Policies**

**Basis of Accounting**

The financial statements of the Plan are presented on the accrual basis. Benefit payments are reported when paid.

**Investment Valuation and Income Recognition**

Investments are stated at fair value. Fair values are based on quoted prices as of the date of the financial statements, or if market quotations are not readily available, upon estimated values obtained from a major investment securities firm.

Under the terms of its trust agreement, the Plan engaged in an authorized form of security lending activities during the years ended December 31, 2007 and 2006. The market value of securities on loan and the collateral held at The Northern Trust Company at December 31, 2007 were \$633 million and \$646 million, respectively. The market value of securities on loan and the collateral held at The Northern Trust Company at December 31, 2006 were \$470 million and \$481 million, respectively. In accordance with the Securities Lending Agreement, the market value of the collateral held is required to be 100% of the market value of government securities lent and 102% for all other securities lent. Collateral held consists of cash, letters of credit, and government securities. At December 31, 2007 and 2006, the market value of all collateral held was at least 102%. The securities on loan are reflected in the Statement of Net Assets Available for Benefits and the Schedule of Assets (Held at End of Year) at December 31, 2007 and 2006.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Net appreciation and depreciation in the current value of investments includes realized gains and losses on investments sold or disposed of during the year and unrealized gains and losses on investments held at year end.

Participant loans represent the outstanding principal balances of the loans and are valued at cost, which approximates current value.

The Plan is subject to normal risks associated with international and domestic debt and equity markets, including the investment in ExxonMobil common stock.

Transfers-in include participant-initiated rollovers of certain distributions from other tax-qualified plans into the Plan.

**Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets available for benefits and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

## NOTES TO FINANCIAL STATEMENTS

**Note 3: Related-Party Transactions**

During 2007, certain Plan investments were units of various funds managed by The Northern Trust Company. The Northern Trust Company also provided custodial and other fiduciary services to the Plan during the plan year and, therefore, purchases and sales of these investments qualified as party-in-interest transactions.

**Note 4: Tax Status**

The Internal Revenue Service has determined and informed the Plan administrators by a letter dated November 14, 2002, that the Plan is qualified and the trusts established under the Plan are tax-exempt, under the appropriate sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, counsel for the Company believes that these amendments have not adversely affected the Plan's qualified status and the related trust's tax-exempt status as of the financial statement date.

**Note 5: Expenses**

Investment income from all sources is stated net of administrative expenses, which include brokerage fees on purchases and sales of ExxonMobil common stock, management fees, and brokerage commissions. Plan administration expenses, to the extent not paid by the Company, are charged to and paid from the Plan's assets. Administrative expenses are recorded when incurred.

**Note 6: Investments**

The following presents investments that represent 5 percent or more of the Plan's net assets available for benefits.

	(millions of dollars)	
	December 31, 2007	December 31, 2006
	<u>                    </u>	<u>                    </u>

## Report of Independent Registered Public Accounting Firm

To the Participants and Administrators of the ExxonMobil Savings Plan:

In our opinion, the accompanying statements of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the ExxonMobil Savings Plan (the "Plan") at December 31, 2007 and 2006, and the changes in net assets available for benefits for the year ended December 31, 2007, in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2007 and schedule H, line 4i - schedule of assets (acquired and disposed of within year) as of December 31, 2007 are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.
