Non-Cash Transaction

In the third quarter of 2014, ExxonMobil completed an asset exchange, primarily a noncash transaction, of approximately \$600 million. This amount is not included in the “Proceeds associated with sales of subsidiaries, property, plant and equipment, and sales and returns of investments” or the “Additions to property, plant and equipment” in the Statement of Cash Flows.

The information in the Notes to Condensed Consolidated Financial Statements is an integral part of these statements.

EXXON MOBIL CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Financial Statement Preparation

These unaudited condensed consolidated financial statements should be read in the context of the consolidated financial statements and notes thereto filed with the Securities Exchange Commission in the Corporation's 2013 Annual Report on Form 10-K. In the opinion of the Corporation, the information furnished herein reflects all known accrual adjustments necessary for a fair statement of the results for the periods reported herein. All such adjustments are of a normal recurring nature. Prior data has been reclassified in certain cases to conform to the current presentation basis.

The Corporation's exploration and production activities are accounted for under the "successful efforts" method.

2. Litigation and Other Contingencies

Litigation

A variety of claims have been made against ExxonMobil and certain of its consolidated subsidiaries in a number of pending lawsuits. Management has regular litigation reviews including updates from corporate and outside counsel, to assess the need for accounting recognition or disclosure of these contingencies. The Corporation accrues an undiscounted liability for those contingencies where the incurrence of a loss is probable and the amount can be reasonably estimated. If a range of amounts can be reasonably estimated and the amount within the range is a better estimate than any other amount, then the minimum of the range is accrued. The Corporation does not record liabilities when the likelihood of the liability has been incurred is probable but the amount cannot be reasonably estimated or when the liability is believed to be only reasonably possible or remote. For contingencies where an unfavorable outcome is reasonably possible and which are significant, the Corporation discloses the nature of the contingency and, where feasible, the estimate of the possible loss. For purposes of our contingency disclosures, "significant" includes material matters as well as other matters which management believes should be disclosed. ExxonMobil will continue to defend itself vigorously in these matters. Based on a consideration of all relevant facts and circumstances, the Corporation does not believe that the ultimate outcome of any currently pending lawsuit against ExxonMobil will have a material adverse effect upon the Corporation's operations, financial condition, or financial statements taken as a whole.

Other Contingencies

The Corporation and certain of its consolidated subsidiaries were contingently liable at September 30, 2014, for guarantees relating to notes, loans and performance under contracts. Where guarantees for environmental remediation and other similar matters do not include a stated cap, the amounts reflect management's estimate of the maximum potential exposure. These guarantees are not reasonably likely to have a material effect on the Corporation's financial condition, changes in financial condition, revenues or expenses, or operations, liquidity, capital expenditures or capital resources.

	As of September 30, 2014		
	Equity Company Obligations (1)	Other Third Party Obligations	Total
	<i>(millions of dollars)</i>		
Guarantees			
Debt-related	3,398	44	3,442
Other	3,267	4,273	7,540
Total	6,665	4,317	10,982

(1) ExxonMobil share

Additionally, the Corporation and its affiliates have numerous long-term sales and purchase commitments in their various business activities, all of which are expected to be fulfilled with no adverse consequences material to the Corporation's operations or financial condition. The Corporation's outstanding unconditional purchase obligations as of September 30, 2014, were similar to those at the prior year-end period. Unconditional purchase obligations as defined by accounting standards are those long-term commitments that are noncancelable or cancelable only under certain conditions, and that third parties have used to secure financing for the facilities that will provide the contracted goods and services.

The operations and earnings of the Corporation and its affiliates throughout the world have been, and may in the future be, affected from time to time in varying degrees by political developments and laws and regulations, such as forced divestiture of assets; restrictions on production, imports and exports; price controls; tax increases and retroactive claims; expropriation of property; cancellation of contract rights and environmental regulations. Both the likelihood of such occurrences and their overall effect upon the Corporation vary greatly from country to country and are not predictable.

In accordance with a nationalization decree issued by Venezuela's president in February 2007, by May 1, 2007, a subsidiary of the Venezuelan National Oil Company (PDVSA) assumed the operatorship of the Cerro Negro Heavy Oil Project. This Project had been operated and owned by ExxonMobil affiliates holding a 41.67 percent ownership interest in the Project. The decree also required conversion of the Cerro Negro Project into a "mixed enterprise" and an increase in PDVSA's or one of its affiliate's ownership interest in the Project, with the stipulation that if ExxonMobil refused to accept the terms for the formation of the mixed enterprise within a specified period of time, the government would "directly assume the activities" carried out by the joint venture. ExxonMobil refused to accede to the terms proffered by the government, and on June 27, 2007, the government expropriated ExxonMobil's 41.67 percent interest in the Cerro Negro Project. ExxonMobil's remaining net book investment in Cerro Negro producing assets is about \$750 million.

On September 6, 2007, affiliates of ExxonMobil filed a Request for Arbitration with the International Centre for Settlement of Investment Disputes (ICSID) invoking jurisdiction under Venezuela's Investment Law and the Netherlands-Venezuela Bilateral Investment Treaty. The ICSID Tribunal issued a decision on June 10, 2010, finding that it had jurisdiction to proceed on the basis of the Netherlands-Venezuela Bilateral Investment Treaty. On October 9, 2014, the ICSID Tribunal issued its final award finding in favor of the ExxonMobil affiliates and awarding \$1.6 billion as of the date of expropriation, June 27, 2007, and interest from that date at 3.25% compounded annually until the payment in full. The Tribunal also noted that one of the Cerro Negro Project agreements provides a mechanism to prevent double recovery between the ICSID award and all of an earlier award of \$908 million to an ExxonMobil affiliate, Mobil Cerro Negro, Ltd., against PDVSA and a PDVSA affiliate, PDVSA CN, in an arbitration under the rules of the International Chamber of Commerce (ICC). Judgment was entered on the ICSID award by the United States District Court for the Southern District of New York on October 2, 2014. A motion to vacate that judgment on procedural grounds was filed by the Republic of Venezuela on October 14, 2014, and is pending before the court. On October 23, 2014, the Republic of Venezuela filed with ICSID an application to revise the ICSID award such that it requires repayment of the value of the ICC award to PDVSA at the same time payment is made to the ExxonMobil affiliates for the ICSID award and that provision be made for interest on the amount to be repaid. Thereafter, pursuant to ICSID arbitration rules, the ICSID award was stayed pending further action of the Tribunal. On October 27, 2014, ExxonMobil filed a response with ICSID that contests the application for revision of that award on both factual and jurisdictional grounds. The ICSID award has yet to be satisfied and proceedings concerning the award remain pending and so the net impact of these matters on the Corporation's consolidated financial results cannot be reasonably estimated. Regardless, the Corporation does not expect the resolution to have a material effect upon the Corporation's operations or financial condition.

An affiliate of ExxonMobil is one of the Contractors under a Production Sharing Contract (PSC) with the Nigerian National Petroleum Corporation (NNPC) covering a gas block located in the offshore waters of Nigeria. ExxonMobil's affiliate is the operator of the block and owns a 56.25 percent interest under the PSC. The Contractors are in dispute with NNPC regarding NNPC's lifting of crude oil in excess of its entitlement under the terms of the PSC. In accordance with the terms of the PSC, the Contractors initiated arbitration in Abuja, Nigeria, under the Nigerian Arbitration and Conciliation Act. On October 24, 2011, a three-member arbitral Tribunal issued an award upholding the Contractors' position in all material respects and awarding damages to the Contractors jointly in an amount of approximately \$1.8 billion plus \$234 million in accrued interest. The Contractors petitioned a Nigerian federal court for enforcement of the award, and NNPC petitioned the same court to have the award set aside. On May 22, 2012, the court set aside the award. The Contractors have appealed that judgment. In June 2013, the Contractors filed a lawsuit against NNPC in the Nigerian federal high court in order to preserve their ability to seek enforcement of the PSC in the courts if necessary. In October 2014, the Contractors filed suit in the United States District Court for the Southern District of New York to enforce, if necessary, the arbitration award against NNPC assets residing within that jurisdiction. At this time, the net impact of this matter on the Corporation's consolidated financial results cannot be reasonably estimated. However, regardless of the outcome of enforcement proceedings, the Corporation does not expect the proceedings to have a material effect upon the Corporation's operations or financial condition.

Amortization of actuarial loss/(gain) and prior service cost	29	61	100
Net benefit cost	141	182	471

6. Financial Instruments

The fair value of financial instruments is determined by reference to observable market data and other valuation techniques as appropriate. The only category of financial instruments where the difference between fair value and recorded book value is notable is long-term debt. The estimated fair value of total long-term debt, excluding capital lease obligations, was \$11,568 million at September 30, 2014, and \$6,787 million at December 31, 2013, as compared to recorded book values of \$11,238 million at September 30, 2014, and \$6,516 million at December 31, 2013. The increase in the estimated fair value and book value of long-term debt reflects the Corporation's issuance of \$5,500 million of long-term debt in the first quarter of 2014. The \$5,500 million of long-term debt is comprised of \$750 million of floating-rate notes due in 2017, \$500 million of floating-rate notes due in 2019, \$1,500 million of 0.921% notes due in 2017, \$1,750 million of 1.819% notes due in 2019, and \$1,000 million of 3.176% notes due in 2024.

The fair value of long-term debt by hierarchy level at September 30, 2014, is: Level 1 \$10,868 million; Level 2 \$637 million; and Level 3 \$63 million. Level 1 represents prices in active markets. Level 2 includes debt whose fair value is based upon a publicly available index. Level 3 involves using internal data augmented by relevant indicators if available.

References in this discussion to corporate earnings mean net income attributable to ExxonMobil (U.S. GAAP) from the consolidated income statement. Unless otherwise indicated, references to earnings, Upstream, Downstream, Chemical and Corporate and Financing segment earnings, and earnings per share are ExxonMobil's share after excluding amounts attributable to noncontrolling interests.

REVIEW OF THIRD QUARTER 2014 RESULTS

Earnings in the period rose 3 percent from the third quarter of 2013, driven by higher margins and improved operations in the Downstream and Chemical businesses, partially by the impact of lower Upstream realizations.

ExxonMobil's quarterly results demonstrate the strength of our integrated business model. Integration across Upstream, Downstream and Chemical gives us competitive advantages in scale, efficiency, technical and commercial capabilities, regardless of market fluctuations over the business cycle.

Earnings of \$25,950 million in the first nine months of 2014 increased \$1,720 million from 2013.

Earnings per share – assuming dilution for the first nine months of 2014 increased 11 percent to \$6.04.

Capital and exploration expenditures for the first nine months of 2014 were \$28.1 billion, down 14 percent from 2013.

Through the first nine months of 2014, the Corporation distributed \$17.6 billion to shareholders through dividends and share purchases to reduce shares outstanding.

	Third Quarter		First Nine Months
	2014	2013	2014
	<i>(millions of dollars)</i>		
Upstream earnings			
United States	1,257	1,050	3,694
Non-U.S.	5,159	5,663	18,386
Total	6,416	6,713	22,080

Upstream earnings were \$6,416 million in the third quarter of 2014, down \$297 million from the third quarter of 2013. Lower realizations decreased earnings by \$670 million. Favorable volume mix effects increased earnings by \$340 million. All other items increased earnings by \$30 million.

On an oil-equivalent basis, production decreased 4.7 percent from the third quarter of 2013. Excluding the impact of the expiry of the Abu Dhabi onshore concession, production decreased 1 percent, with liquids up 0.6 percent and gas down 2.9 percent.

Liquids production totaled 2,065 kbd (thousands of barrels per day), down 134 kbd from the third quarter of 2013. The Abu Dhabi onshore concession expiry reduced volumes by 148 kbd. Excluding this impact, liquids production was up slightly as project ramp-up and work programs more than offset field decline, divestment impacts and downtime.

Third quarter natural gas production was 10,595 mcf (millions of cubic feet per day), down 319 mcf from 2013. Field decline and lower entitlement volumes were offset by new production from Papua New Guinea and work programs.

Earnings from U.S. Upstream operations were \$1,257 million, \$207 million higher than the third quarter of 2013. Non-U.S. Upstream earnings were \$5,159 million, up \$504 million from the prior year.

Upstream earnings in the first nine months of 2014 were \$22,080 million, up \$2,025 million from 2013. Lower prices and volumes were more than offset by favorable mix increasing earnings by a net \$470 million. All other items, primarily asset sales, increased earnings by \$1.6 billion.

On an oil-equivalent basis, production was down 5.3 percent compared to the same period in 2013. Excluding the impact of the expiry of the Abu Dhabi onshore concession, production decreased 2 percent.

Liquids production of 2,087 kbd decreased 105 kbd compared to 2013. The Abu Dhabi onshore concession expiry reduced volumes by 137 kbd. Excluding this impact, production was up 1.5 percent, driven by project ramp-up and work programs.

Natural gas production of 11,115 mcf decreased 703 mcf from 2013, as expected U.S. field decline and lower European demand were partially offset by project ramp-up work programs.

Earnings from U.S. Upstream operations were \$3,694 million, up \$689 million from 2013. Non-U.S. Upstream earnings were \$18,386 million, up \$1,336 million from the prior year.

2014	<u>3,831</u>	<u>3,940</u>

(1) Gas converted to oil-equivalent at 6 million cubic feet = 1 thousand barrels.

Listed below are descriptions of ExxonMobil's entitlement volume effects. These descriptions are provided to facilitate understanding of the terms.

Production Sharing Contract (PSC) Net Interest Reductions are contractual reductions in ExxonMobil's share of production volumes covered by PSCs. These reductions typically occur when cumulative investment returns or production volumes achieve thresholds as specified in the PSCs. Once a net interest reduction has occurred, it typically cannot be reversed by subsequent events, such as lower crude oil prices.

Price and Spend Impacts on Volumes are fluctuations in ExxonMobil's share of production volumes caused by changes in oil and gas prices or spending levels from one period to another. For example, at higher prices, fewer barrels are required for ExxonMobil to recover its costs. According to the terms of contractual arrangements or government regulations, price or spending variability can increase or decrease royalty burdens and/or volumes attributable to ExxonMobil. These effects generally vary from period to period based on field spending patterns or market prices for crude oil or natural gas.

	Third Quarter		First Nine Months

	<i>(millions of dollars)</i>		
Downstream earnings			
United States	460	315	1,619
Non-U.S.	564	277	929
Total	<u>1,024</u>	<u>592</u>	<u>2,548</u>

Downstream earnings were \$1,024 million in the third quarter of 2014, up \$432 million from 2013. Stronger margins, primarily refining, increased earnings by \$820 million. Volume and mix effects increased earnings by \$100 million. All other items, primarily foreign exchange impacts, decreased earnings by \$490 million. Petroleum product sales of 5,999 kbd were 32 kbd lower than last year's third quarter.

Earnings from the U.S. Downstream were \$460 million, up \$145 million from the third quarter of 2013. Non-U.S. Downstream earnings of \$564 million were \$287 million higher than last year.

Downstream earnings of \$2,548 million in the first nine months of 2014 increased \$15 million from 2013. Lower margins, mainly refining, decreased earnings by \$280 million. Volume and mix effects increased earnings by \$460 million. All other items, primarily unfavorable foreign exchange and tax impacts, partially offset by lower operating expenses, decreased earnings by \$160 million. Petroleum product sales of 5,886 kbd increased 35 kbd from 2013.

U.S. Downstream earnings were \$1,619 million, up \$17 million from 2013. Non-U.S. Downstream earnings were \$929 million, a decrease of \$2 million from the prior year.

	Third Quarter		First Nine Months
	2014	2013	2014
	<i>(millions of dollars)</i>		
Chemical earnings			
United States	765	680	1,972
Non-U.S.	435	345	1,116
Total	1,200	1,025	3,088

Third quarter 2014 Chemical earnings of \$1,200 million were \$175 million higher than the third quarter of 2013. Margins increased earnings by \$210 million, with in commodities realizations partly offset by weaker specialties. Volume and mix effects increased earnings by \$10 million. All other items decreased earnings by \$40 million. Third quarter prime product sales of 6,249 kt (thousands of metric tons) were essentially flat with last year's third quarter.

Chemical earnings of \$3,088 million in the first nine months of 2014 were \$170 million higher than 2013. Higher margins increased earnings by \$20 million, while volume and mix effects increased earnings by \$140 million. All other items increased earnings by \$10 million. Prime product sales of 18,516 kt were up 530 kt from 2013, driven by in Singapore production.

	Third Quarter		First Nine Months
	2014	2013	2014
	<i>(millions of dollars)</i>		
Corporate and financing earnings	(570)	(460)	(1,766)

Corporate and financing expenses were \$570 million for the third quarter of 2014, up \$110 million from the third quarter of 2013.

Corporate and financing expenses were \$1,766 million in the first nine months of 2014, up \$490 million from 2013, primarily due to unfavorable tax impacts.

LIQUIDITY AND CAPITAL RESOURCES

	Third Quarter		First Nine Months	
	2014	2013	2014	2013
	(millions of dollars)			
Net cash provided by/(used in)				
Operating activities			37,701	(19,085)
Investing activities			(18,128)	(19,085)
Financing activities			(170)	
Effect of exchange rate changes				
Increase/(decrease) in cash and cash equivalents			318	
Cash and cash equivalents (at end of period)			4,962	
Cash and cash equivalents – restricted (at end of period)			52	
Total cash and cash equivalents (at end of period)			5,014	
Cash flow from operations and asset sales				
Net cash provided by operating activities (U.S. GAAP)	12,396	13,431	37,701	
Proceeds associated with sales of subsidiaries, property, plant & equipment, and sales and returns of investments	127	206	3,794	
Cash flow from operations and asset sales	12,523	13,637	41,495	

Because of the ongoing nature of our asset management and divestment program, we believe it is useful for investors to consider proceeds associated with asset sales together with cash provided by operating activities when evaluating cash available for investment in the business and financing activities, including shareholder distributions.

Cash flow from operations and asset sales in the third quarter of 2014 was \$12.5 billion, including asset sales of \$0.1 billion, and decreased \$1.1 billion from the comparable period primarily due to working capital changes.

Cash provided by operating activities totaled \$37.7 billion for the first nine months of 2014, \$3.0 billion higher than 2013. The major source of funds was net income in noncontrolling interests of \$26.8 billion, an increase of \$2.0 billion from the prior year period. The adjustment for the noncash provision of \$12.8 billion for depreciation and depletion was flat with 2013. Changes in operational working capital decreased cash flows by \$0.5 billion in 2014 primarily due to increase in inventory offset by changes in other working capital balances. Changes in operational working capital decreased cash flows by \$2.7 billion in 2013, primarily due to an increase in inventory. All other items net decreased cash flows by \$1.5 billion in 2014 and by \$0.2 billion in 2013. For additional details, see the Condensed Consolidated Statement of Cash Flows on page 6.

Investing activities for the first nine months of 2014 used net cash of \$18.1 billion, a decrease of \$9.4 billion compared to the prior year. Spending for additions to plant and equipment of \$24.1 billion was \$1.2 billion lower than 2013. Proceeds from asset sales of \$3.8 billion increased \$2.9 billion. Additional investment and acquisition of subsidiaries decreased cash flows by \$2.4 billion to \$1.3 billion reflecting the absence of the 2013 acquisition of Celtic Exploration Ltd. Other investing activities – net increased \$2.9 billion to \$3.4 billion primarily reflecting the collection of advances.

Cash flow from operations and asset sales for the first nine months of 2014 was \$41.5 billion, including asset sales of \$3.8 billion, and increased \$5.9 billion from the comparable 2013 period due to higher proceeds from asset sales and the absence of unfavorable 2013 working capital impacts.

During the first quarter of 2014, the Corporation issued \$5.5 billion of long-term debt and used the proceeds to reduce short-term debt. Net cash used in financing activities of \$19.1 billion in the first nine months of 2014 was \$7.8 billion higher than 2013 reflecting total debt reduction in 2014 and short-term debt issuance in 2013, partially offset by a lower level of purchases of shares of ExxonMobil stock in 2014.

During the third quarter of 2014, Exxon Mobil Corporation purchased 30 million shares of its common stock for the treasury at a gross cost of \$3.0 billion. These purchases were to reduce the number of shares outstanding. Shares outstanding decreased from 4,265 million at the end of the second quarter to 4,235 million at the end of the third quarter of 2014. Purchases may be made in both the open market and through negotiated transactions, and may be increased, decreased or discontinued at any time without prior notice.

The Corporation distributed to shareholders a total of \$5.9 billion in the third quarter of 2014 through dividends and share purchases to reduce shares outstanding.

Total cash and cash equivalents of \$5.0 billion at the end of the third quarter of 2014 compared to \$5.7 billion at the end of the third quarter of 2013.

Total debt of \$21.8 billion compared to \$22.7 billion at year-end 2013. The Corporation's debt to total capital ratio was 10.4 percent at the end of the third quarter of 2014 compared to 11.2 percent at year-end 2013.

While the Corporation issues long-term debt from time to time, the Corporation currently expects to cover its near-term financial requirements predominantly with internally generated funds, supplemented by its revolving commercial paper program.

The Corporation, as part of its ongoing asset management program, continues to evaluate its mix of assets for potential upgrade. Because of the ongoing nature of this program, dispositions will continue to be made from time to time which will result in either gains or losses. Additionally, the Corporation continues to evaluate opportunities to enhance its business portfolio through acquisitions of assets or companies, and enters into such transactions from time to time. Key criteria for evaluating acquisitions include potential for future growth and attractive current valuations. Acquisitions may be made with cash, shares of the Corporation's common stock, or both.

Litigation and other contingencies are discussed in Note 2 to the unaudited condensed consolidated financial statements.

TAXES

	Third Quarter		First Nine Months	
	2014	2013	2014	2013
	<i>(millions of dollars)</i>			
Income taxes	5,064	6,120	15,955	18,806
<i>Effective income tax rate</i>	43%	48%	43%	
Sales-based taxes	7,519	7,882	22,806	22,806
All other taxes and duties	9,060	9,252	27,223	27,223
Total	21,643	23,254	65,984	68,835

Income, sales-based and all other taxes and duties totaled \$21.6 billion for the third quarter of 2014, a decrease of \$1.6 billion from 2013. Income tax expense decreased \$1.1 billion to \$5.1 billion as a result of a lower effective tax rate. The effective income tax rate was 43 percent compared to 48 percent in the prior year period due primarily to changes related to the Corporation's asset management program. Sales-based taxes and all other taxes and duties decreased by \$0.6 billion to \$16.6 billion.

Income, sales-based and all other taxes and duties totaled \$66.0 billion for the first nine months of 2014, a decrease of \$2.2 billion from 2013. Income tax expense decreased \$1.2 billion to \$16.0 billion as a result of a lower effective tax rate. The effective income tax rate was 43 percent compared to 48 percent in the prior year due primarily to changes related to the Corporation's asset management program. Sales-based and all other taxes were flat at \$50.0 billion.

CAPITAL AND EXPLORATION EXPENDITURES

	Third Quarter		First Nine Months	
	2014	2013	2014	2013
	<i>(millions of dollars)</i>			
Upstream (including exploration expenses)	8,424	9,475	24,082	29,59
Downstream	780	556	2,002	1,74
Chemical	626	509	1,970	1,21
Other	7	6	19	1
Total	9,837	10,546	28,073	32,56

Capital and exploration expenditures in the third quarter of 2014 were \$9.8 billion, down 7 percent from the third quarter of 2013.

Capital and exploration expenditures in the first nine months of 2014 were \$28.1 billion, down 14 percent from the first nine months of 2013 due primarily to the absence of the \$3.1 billion Celtic Exploration Ltd. acquisition. The Corporation anticipates an average investment profile of about \$37 billion per year for the next several years. Actual spending could vary depending on the progress of individual projects and property acquisitions.

As noted in Item 1A of ExxonMobil's Form 10-K for 2013, the Corporation's results can be adversely affected by political or regulatory developments affecting our operations. These include restrictions on doing business in certain countries, or restricting the kind of business that may be conducted. As noted in ExxonMobil's Form 10-Q for the quarter ended June 30, 2014, both the European Union (EU) and the United States (U.S.) have imposed sanctions against Russia relating to the situation in the Ukraine. On September 15, 2014, the EU and U.S. imposed additional sanctions relating to the Russian energy sector. In compliance with the sanctions and all general and specific licenses, production and export activities involving offshore Russia in the Black Sea, Arctic regions, and onshore West Siberia have been wound down.

RECENTLY ISSUED ACCOUNTING STANDARDS

In May 2014, the Financial Accounting Standards Board issued a new standard, *Revenue from Contracts with Customers*. The standard establishes a single revenue recognition model for all contracts with customers, eliminates industry specific requirements and expands disclosure requirements. The standard is required to be adopted beginning January 1, 2017. ExxonMobil is evaluating the standard and its effect on the Corporation's financial statements.

FORWARD-LOOKING STATEMENTS

Statements relating to future plans, projections, events or conditions are forward-looking statements. Actual results, including project plans, costs, timing, and capacities; capital expenditures; resource recoveries; and share purchase levels, could differ materially due to factors including: changes in oil or gas prices or other market or economic conditions affecting the oil and gas industry, including the scope and duration of economic recessions; the outcome of exploration and development efforts; changes in government regulation, including tax and environmental requirements; the outcome of commercial negotiations; changes in technical or operating conditions; and other factors discussed under the heading "Factors Affecting Future Results" in the "Investors" section of our website and in Item 1A of ExxonMobil's 2013 Form 10-K. We assume no responsibility to update these statements as of any future date.

The term "project" as used in this report can refer to a variety of different activities and does not necessarily have the same meaning as in any government payment transparency reports.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Information about market risks for the nine months ended September 30, 2014, does not differ materially from that discussed under Item 7A of the registrant's Annual Report on Form 10-K for 2013.

Item 4. Controls and Procedures

As indicated in the certifications in Exhibit 31 of this report, the Corporation's Chief Executive Officer, Principal Financial Officer and Principal Accounting Officer have evaluated the Corporation's disclosure controls and procedures as of September 30, 2014. Based on that evaluation, these officers have concluded that the Corporation's disclosure controls and procedures are effective in ensuring that information required to be disclosed by the Corporation in the reports that it files or submits under the Securities Exchange Act of 1934, as amended, is accumulated and communicated to them in a manner that allows for timely decisions regarding required disclosures and are effective in ensuring that information is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. There were no changes during the Corporation's last fiscal quarter that materially affected, or are reasonably likely to materially affect, the Corporation's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

ExxonMobil Refining & Supply Company, a division of the Corporation, entered into a Consent Agreement and Final Order, effective August 19, 2014, resolving two violations relating to a purported failure to annually certify operating procedures for two processes and an alleged failure to fully train contract employees on practices associated with opening process equipment during two incidents at the Baton Rouge Refinery in early 2012. These alleged violations were identified by the United States Environmental Protection Agency (EPA) during a July 2012 inspection of the refinery. The settlement terms, agreed to by the EPA and the Corporation, require the Corporation to pay a penalty in the amount of \$120,000.

As reported in the Corporation's Form 10-Q for the second quarter of 2014, on May 20, 2014, the Texas Commission on Environmental Quality (TCEQ) issued a Notice of Enforcement and Proposed Agreed Order alleging that record reviews and inspections at ExxonMobil Oil Corporation's (EMOC) Beaumont, Texas, refinery in 2013 and 2014 identified deficiencies in the refinery's cooling tower monitoring activities and one air emission event, which allegedly violated provisions of the Texas Health and Safety Code, Texas Water Code, and the Code of Federal Regulations. Additionally, TCEQ identified deficiencies in a refinery continuous emissions monitoring system relative accuracy audit procedure. The parties have agreed upon full settlement of the enforcement action which imposes a \$200,859 penalty on EMOC. To date, \$100,429 has been paid to TCEQ. The balance will be paid to a Supplemental Environmental Project upon endorsement by TCEQ.

Regarding the civil enforcement investigation related to the April 28, 2012, discharge of crude oil from the ExxonMobil Pipeline Company's (EMPCo) North Line Pipeline in Pointe Coupee Parish, Louisiana, previously reported in the Corporation's Form 10-Q for the third quarter of 2013, EMPCo entered into a Consent Decree with the Department of Justice and the EPA, which was filed in federal court on August 26, 2014, and approved by the Court on October 17, 2014. EMPCo agreed to a penalty of \$10 million which resolved the Clean Water Act allegation. The allegations raised by the Louisiana Department of Environmental Quality remain unresolved at this time.

Regarding the U.S. Department of Transportation Pipeline & Hazardous Material Safety Administration (PHMSA) enforcement action with respect to EMPCo's pipeline integrity management program previously reported in the Corporation's Form 10-Q for the first quarter of 2012 and second quarter of 2013, on July 15, 2014, PHMSA issued its decision on EMPCo's Petition for Reconsideration and reduced the civil penalty imposed on EMPCo from \$112,300 to \$101,500 and reduced the number of pipeline segments required to be hydro-pressure tested from 16 to 7 segments. EMPCo paid the penalty assessed on August 4, 2014.

Regarding the enforcement matter brought by TCEQ concerning alleged exceedances of volatile organic compound emissions from Tank 22 at the Corporation's Kingwood Gas Plant previously reported in the Corporation's Form 10-K for 2013, the parties have agreed upon a settlement of the matter, which was approved by the TCEQ Commission on August 20, 2014. The settlement requires the Corporation to comply with the applicable new source review permit, remove Tank 22 from service, and pay a penalty of \$180,000 consisting of a \$90,180 civil penalty and a \$90,180 payment to a TCEQ-approved Supplemental Environmental Project fund. The remaining \$45,090 of the penalty will be credited to and removed if all of the terms of the settlement agreement are achieved by August 20, 2015.

As reported in the Corporation's Forms 10-Q for the first quarter of 2012 and the first and second quarters of 2014, the EPA issued administrative orders to XTO Energy (XTO) for alleged violations of the Clean Water Act at three XTO locations in West Virginia. In addition, XTO voluntarily disclosed six additional West Virginia sites to the EPA. One of these voluntarily reported sites has been resolved with no enforcement action taken. Negotiations continue on a Consent Decree for the remaining eight sites to resolve outstanding penalty and compliance issues. It is expected that the EPA will seek penalties from XTO in excess of \$100,000 to resolve the matters at all of the remaining sites.

Refer to the relevant portions of Note 2 of this Quarterly Report on Form 10-Q for further information on legal proceedings.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**Issuer Purchase of Equity Securities for Quarter Ended September 30, 2014**

<u>Period</u>	<u>Total Number of Shares Purchased</u>	<u>Average Price Paid per Share</u>	<u>Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs</u>	<u>Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs</u>
July 2014	9,877,347	\$102.84	9,877,347	
August 2014	10,020,040	\$99.09	10,020,040	
September 2014	10,271,733	\$96.70	10,271,733	
Total	<u>30,169,120</u>	<u>\$99.50</u>	<u>30,169,120</u>	(See Note 1)

Note 1 - On August 1, 2000, the Corporation announced its intention to resume purchases of shares of its common stock for the treasury both to offset shares issued in conjunction with company benefit plans and programs and to gradually reduce the number of shares outstanding. The announcement did not specify an amount or expiration date. The Corporation has continued to purchase shares since this announcement and to report purchased volumes in its quarterly earnings releases. In its most recent earnings release dated October 31, 2014, the Corporation stated that fourth quarter 2014 share purchases to reduce shares outstanding are anticipated to equal \$3 billion. Purchases may be made in the open market and through negotiated transactions, and purchases may be increased, decreased or discontinued at any time without prior notice.

**Certification by Rex W. Tillerson
Pursuant to Securities Exchange Act Rule 13a-14(a)**

I, Rex W. Tillerson, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Exxon Mobil Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rule 15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (or the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's audit committee and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
