Item 8.01. Other Events.

Exxon Mobil Corporation (the “Corporation”) provides the following disclosure in connection with the special meeting of stockholders of Denbury, Inc., a Delaware corporation (“Denbury”), to be held on October 31, 2023 to vote on the acquisition of Denbury by the Corporation as more fully described in the definitive proxy statement/prospectus (as defined below) filed with the Securities and Exchange Commission (“SEC”), dated September 29, 2023, relating to such acquisition and special meeting.

Based on the exchange ratio of 0.840 of a share of ExxonMobil common stock, the \$113.02 closing price per share of ExxonMobil common stock on October 19, 2023, and the amount of Denbury’s indebtedness currently expected to be outstanding at the closing of the merger, the transaction fee for each of J.P. Morgan Securities LLC and TPH&Co. would be approximately \$42.7 million (including the \$3 million opinion fee which became payable to each of them upon delivery of their respective fairness opinion to the Denbury board of directors). As compensation for its services in connection with the merger, PJT Partners is entitled to receive from Denbury a fee of \$3 million, which became payable upon the delivery of PJT Partners’ opinion to the Denbury board of directors.

Forward-Looking Statements

This communication contains “forward-looking statements” within the meaning of the federal securities laws, including Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. In this context, forward-looking statements often address future business and financial events, conditions, expectations, plans or ambitions, and often contain words such as “expect,” “anticipate,” “intend,” “plan,” “believe,” “seek,” “see,” “will,” “would,” “target,” similar expressions, and variations or negatives of these words, but not all forward-looking statements include such words. Forward-looking statements by their nature address matters that are, to different degrees, uncertain, such as statements about the consummation of the proposed transaction and the anticipated benefits thereof. All such forward-looking statements are based upon current plans, estimates, expectations and ambitions that are subject to risks, uncertainties and assumptions, many of which are beyond the control of the Corporation and Denbury, that could cause actual results to differ materially from those expressed in such forward-looking statements. Important risk factors that may cause such a difference include, but are not limited to: the completion of the proposed transaction on anticipated terms and timing, or at all, including obtaining regulatory approvals that may be required on anticipated terms and Denbury stockholder approval; anticipated tax treatment, unforeseen liabilities, future capital expenditures, revenues, expenses, earnings, synergies, economic performance, indebtedness, financial condition, losses, future prospects, business and management strategies for the management, expansion and growth of the combined company’s operations and other conditions to the completion of the merger, including the possibility that any of the anticipated benefits of the proposed transaction will not be realized or will not be realized within the expected time period; the ability of the Corporation and Denbury to integrate the business successfully and to achieve anticipated synergies and value creation; potential litigation relating to the proposed transaction that could be instituted against the Corporation, Denbury or their respective directors; the risk that disruptions from the proposed transaction will harm the Corporation’s or Denbury’s business, including current plans and operations and that management’s time and attention will be diverted on transaction-related issues; potential adverse reactions or changes to business relationships resulting from the announcement or completion of the merger; rating agency actions and the Corporation and Denbury’s ability to access short- and long-term debt markets on a timely and affordable basis; legislative, regulatory and economic developments, including regulatory implementation of the Inflation Reduction Act, timely and attractive permitting for carbon capture and storage by applicable federal and state regulators, and other regulatory actions targeting public companies in the oil and gas industry and changes in local, national, or international laws, regulations, and policies affecting the Corporation and Denbury including with respect to the environment; potential business uncertainty, including the outcome of commercial negotiations and changes to existing business relationships during the pendency of the merger that could affect the Corporation’s and/or Denbury’s financial performance and operating results; certain restrictions during the pendency of the merger that may impact Denbury’s ability to pursue certain business opportunities or strategic transactions or otherwise operate its business; acts of terrorism or outbreak of war, hostilities, civil unrest, attacks against the Corporation or Denbury, and other political or security disturbances; dilution caused by the Corporation’s issuance of additional shares of its common stock in connection with the proposed transaction; the possibility that the transaction may be more expensive to complete than anticipated, including as a result of unexpected factors or events; changes in policy and consumer support for emission-reduction products and technology; the impacts of pandemics or other public health crises, including the effects of government responses on people and

economies; global or regional changes in the supply and demand for oil, natural gas, petrochemicals, and feedstocks and other market or economic conditions that impact demand, prices and differentials, including reservoir performance; changes in technical or operating conditions, including unforeseen technical difficulties; those risks described in Item 1A of the Corporation's Annual Report on Form 10-K, filed with the SEC on February 22, 2023, and subsequent reports on Forms 10-Q and 8-K, as well as under the heading "Factors Affecting Future Results" on the Investors page of the Corporation's website at www.exxonmobil.com (information included on or accessible through the Corporation's website is not incorporated by reference into this communication); those risks described in Item 1A of Denbury's Annual Report on Form 10-K, filed with the SEC on February 23, 2023, and subsequent reports on Forms 10-Q and 8-K; and those risks described in the registration statement on Form S-4 and accompanying definitive proxy statement/prospectus available from the sources indicated above. References to resources or other quantities of oil or natural gas may include amounts that the Corporation or Denbury believe will ultimately be produced, but that are not yet classified as "proved reserves" under SEC definitions.

These risks, as well as other risks associated with the proposed transaction, are more fully discussed in the definitive proxy statement/prospectus included in the registration statement on Form S-4 filed with the SEC and mailed to Denbury stockholders in connection with the proposed transaction. While the list of factors presented here and the list of factors presented in the registration statement on Form S-4 and the definitive proxy statement/prospectus are considered representative, no such list should be considered to be a complete statement of all potential risks and uncertainties. Unlisted factors may present significant additional obstacles to the realization of forward-looking statements. We caution you not to place undue reliance on any of these forward-looking statements as they are not guarantees of future performance or outcomes and that actual performance and outcomes, including, without limitation, our actual results of operations, financial condition and liquidity, and the development of new markets or market segments in which we operate, may differ materially from those made in or suggested by the forward-looking statements contained in this communication. Neither the Corporation nor Denbury assumes any obligation to publicly provide revisions or updates to any forward-looking statements, whether as a result of new information, future developments or otherwise, should circumstances change, except as otherwise required by securities and other applicable laws. Neither future distribution of this communication nor the continued availability of this communication in archive form on the Corporation's or Denbury's website should be deemed to constitute an update or re-affirmation of these statements as of any future date.
