Activist shareholders are giving Exxon an ultimatum: set a net-zero emissions goal for 2050 or face inevitable consequences

Reenergize XOM

#ExxonMobil's true emissions reduction trajectory is nowhere near aligned with the Paris Climate Agreement. A clear understanding of XOM's claims underscores the long-term risk facing the Company in a decarbonizing world. **#reenergizeexxon**

#ExxonMobil NEEDS to implement a strategic plan for sustainable value creation by fully exploring growth areas, including more significant investment in clean energy, to help Exxon profitably diversify & ensure it can commit to Scope 1, 2 and 3 emission reduction targets → <https://bit.ly/3q5QMCB>
